

# MacInnes Tool

## PRO-SCORE™ HAND-HELD CUTTER

Chosen by professionals who want a durable high precision hand-held cutter—one that can stand up to industrial use and that provides precise fitting of the wheel in the cutting head to permit free rolling and minimize wobble.

### FEATURES

- ◆ **Made of wear resistant, high quality materials**
  - Hardened Tool Steel Head
  - Long Wearing Carbide Axle
  - Special Durable Alloy Handle
- ◆ **Plunge ground wheel slot provides precise fit of the wheel in the cutting head**
- ◆ **Designed for interchangeability of wheels**

# MACINNES TOOL CORPORATION

**Pro-Score™** Hand-Held Cutters are supplied with or without **Pro-Score™** precision wheels allowing the user to choose the wheel angle and diameter best suited to the application.

## CONSIDER THESE GUIDELINES AS A STARTING POINT FOR WHEEL SELECTION:

		Glass Thickness						
Wheel Code	in.	< .0625	.0625	.0938	.1250	.1875	.2500	> .2500
	mm.	< 1.588	1.588	2.381	3.175	4.762	6.350	> 6.350
<b>732</b>		105°	125°	125°	134°	134°	134°	138°
<b>532</b>		105°	125°	134°	134°	138°	138°	138°

**Notes:** 105° wheels are favored for tubing, very thin glass, stained glass or very hard glass.  
Smaller diameter wheels like the 532 tend to work better cutting intricate patterns or using lighter hand pressures.

## ADDITIONAL INFORMATION AND SERVICES

- ◆ Price sheets, Terms and Conditions
- ◆ Our technical brochure “Technical Guide for Glass Cutting”
- ◆ Be sure to inquire about
  - Pro-Score™ Carbide Glass Cutting Wheels
  - Resharpening Services and Spare Parts
